

DOCUMENT #1: Mrs. J. Jolivet

(addressed to the French Legal System)

April 15, 1992

(To) the Judge:

My daughter, Mrs. Valet, received a letter (from the police), in December of 1991, which urged her to file a complaint against Philip Savage. I decided to answer this letter myself since I was the only one who solicited his Healing Practice. My daughter was then only the intermediary.

In case you are not yet in possession of my letter, let me tell you the facts again. My grandson Arnaud, suffering from terrible seizures of epilepsy, has been cured by Philip Savage. His health state was optimum when, after the police operation of September, Philip Savage was incapable of continuing his healing cares, a terrible collapse has occurred due to this detrimental conspiracy.

I myself have also been entirely and instantly (overnight) healed from an appalling case of Shingles whose terrible sufferings were then impossible for me to stand.

Everywhere within the organized slandering press campaign one can hear and read that Philip Savage was provided with "alleged healing capacities." His abilities are not alleged at all, but absolutely real. He was truly healing diseases and no one better than I do, and can, guarantee it!

When I think that one wants to indict him with unlawful practice of medicine, there are no words by which I am able to express my revolt and my disgust: If medicine could help us to be rid of such sufferings, why should we be compelled to be rescued through such healing practices and moreover we were then constantly under a medical control!

250 Articles and Testimonies

With this slandering press campaign, they dared to pretend that Philip Savage's cares could be hazardous since he was to interfere with medical treatments.... Only lies.

On the contrary, we have been constantly ordered not to change in any way the medical treatment.... Only written and spoken lies!

It matters alot to me that you are apprised of this truth.

DOCUMENT #2: Mrs. J. Jolivet

(addressed to U.S. Justice)

Your Honor:

I would like you to know that Philip Savage has been able to Heal me, overnight (and at a distance), from a terrible painful disease (shingles), when this affliction (if curable) is, as a medically demonstrated fact, always extremely long before it diminishes.

My grandson, who formerly was suffering from severe epilepsy, has also been healed by Philip Savage's cares.

Philip Savage has been the victim of an unheard-of defamatory press campaign.

The political police dared to come directly to my home in order for me to sue him, and since I was denying their lies and claiming Philip Savage's true Healing results, they dared . to mock me and endeavored to convince me otherwise.

However, I persevered and am still proclaiming that I actually have been healed, thanks to his Gift, by Philip Savage. I want my testimony to be used for his defense.

Respectfully,

11 Consultant Testimonies

Some of the many reports by Philip Savage's European Support Committee, established by Mrs. J Jolivet who sent the following letter to other patients of Philip Savage

SUPPORT COMMITTEE FOR Philip Savage

(To) Mrs./Mr:

In order to work out my own health problems, for which official medicine appeared to be ineffectual, I, as yourself, did apply for Philip Savage's cares. Concerning myself, I have been utterly satisfied with the results of his "Healing Practice," since he was completely and instantaneously able to eliminate for me a very painful disease (shingles). Similarly, he achieved the healing, step by step, of my own

grandson who was then suffering from extremely serious epileptic seizures.

In connection with all that, it is needless to say how shocked I felt regarding the revolting slanderous accusations of fraud originated against Philip Savage and the defamatory press campaign deliberately organized and spread throughout the media.

Given such circumstances, a good many of his former consultants, in concert with my own determination to clear Philip Savage of any accusation and to reveal him to be the innocent victim of a conspiracy, have decided to set up a support committee of which I was voted to be the chairperson. We have a double goal:

- 1) To establish the proof that Philip Savage's Healing Practice has brought an undeniable benefit to a great number of people who applied for his cares.

2) To strive for the official acknowledgment of his Gift in order for the government to give a decision on the efficiency (and therefore the lawfulness) of Philip Savage's practice. In the same way, in case of an expected positive decision, we are demanding as firmly as possible the right for Philip Savage to resume his practice in our country.

We must stress, as solemnly as we can, that after they had experienced an unquestionable improvement in their health condition after Philip Savage's cares, a good many of his former patients were sentenced to a terrible and sudden

relapse due to the police attack and neutralization of "his" organization and of "his" collaborators. Because this prevented Philip Savage from continuing to Heal them, his patients suffered tremendous grief thereafter.

In actual fact, since the police dared to violate the law by direct pressure against the consultants and threatening urgings toward the patients to complain against Philip Savage, it is incumbent upon ourselves to counter such appalling methods.

Therefore, we intend to contact and to regroup all the satisfied patients, to the greatest extent possible, in order to give them the opportunity to furnish evidence in Philip

Savage's favor, and also in order to organize actions and responses to counter the trumped-up charges and avoid the expected foredoomed trial that might otherwise be the case for Philip Savage.

Consequently, I expect you to send me back the attached form with all the complementary remarks that you could consider to be useful and, above all, the medical files relating to your health condition, before, during and after Philip Savage's intervention.

Sincerely,
Mrs. Jolivet, Chairman
