

**DOCUMENT #14: Mrs. N. Marechal**

My name is N. Marechal. I am 54 years old. I attest that I have consulted Philip Savage at the beginning of the spring of 1990. I decided from my own free will to consult him. I was acquainted in advance and very supportive of the nature and magnitude of the donation we had to make before his consultation.

At that time, I was sick and absolutely exhausted. Although Philip Savage told me then that I will not be healed in only one session, he informed me that he will bestow me with dynamism and Vital impulse.

Praise be this fantastic Force which dwells within Philip Savage, since in the following months, I experienced an amazing improvement in my health condition. I have total confidence in Philip Savage's exceptional capacities. His gift is coming directly from God. He is an insuperable, ardent believer.

This is why he uses his Powers to help the sick and the suffering. He is constantly to sacrifice his Force in fighting against all human sufferings. He is a universally known and respected person who practices in his country. His healed patients are innumerable and his total credibility has been demonstrated for such a long time that it is beyond any debate.

He has also healed the two daughters of a friend of mine. One was diabetic and now she is cured. The other was experiencing a terrible nervous breakdown. Not only did Philip Savage heal her perfectly from her troubles, but he also gave her a true meaning for the rest of her life.

I am vouching with the highest possible strength for his honesty and for his moral righteousness.

*Consultant Testimonies 267*

I learned of Philip Savage's harassments and, indeed, I am even following very closely the whole issue. I am convinced that he is the victim of a true persecution by the Marxist/socialist government. I believe that the terribly harmful defamatory press campaign against him and all the police persecutions, represent a true political conspiracy deliberately organized by bad and dangerous people in order to destroy him. But when these dangerous bad people, thus, conspire against Philip Savage, they also harm terribly his patients who can no longer benefit from his cares. I hope that someday his honor and his freedom will be granted by a true Justice and that he will return to his Practice to help the sick and suffering.
